

<b>Baptisia</b>		"Starlite Prairieblues"	Spreading erect perennial with glaucous stems and blue-green leaves. Attractive spikes of pea-like pale blue flowers with a white base. Height 1m. Well-drained soil in sun. May-Aug.
<b>Baptisia</b>		"Twilite Prairieblues"	Spreading erect perennial with glaucous stems and blue-green leaves. Attractive spikes of pea-like purple-violet flowers with a lemon-yellow keel. Height 1m. Well-drained soil in sun. May-Aug.
<b>Baptisia</b>	australis		Spreading erect perennial with glaucous stems and blue-green leaves. Attractive pea-like dark blue flower spikes. Height 1m. Well-drained soil in sun. May-Aug.
<b>Beesia</b>	calthifolia		An evergreen perennial with glossy green, cordate veined leaves and spikes of one-sided white starry flowers with exserted stamens. Height 30cm. Well-drained soil in shade. Apr.-Jun.
<b>Berberidopsis</b>	corallina		Twining evergreen climber with dark green leaves glaucous beneath. Attractive pendent racemes of round, dark red flowers. Height 5m. Moist well-drained sheltered site in part shade. Flowers from July to September.
<b>Berberis</b>		"Goldilocks"	An evergreen shrub with upright and arching branches. Leaves are dark, glossy, green and spiny and flowers are deep golden yellow in hanging clusters. Height 2.5m. Spread 2.5m. Well-drained soil in sun or part shade. Flowers from March to April or June to
<b>Berberis</b>	darwinii	"Compacta"	An upright evergreen shrub with glossy, small holly-like, dark green leaves. From ruby flower buds open pendent racemes of dark orange flowers followed by blue-glaucous, black fruit. Height and spread 1.5m. Moist well-drained soil in sun or part shade. Fl
<b>Berberis</b>	sieboldii		A small suckering shrub with oval red-veined leaves. Racemes of yellow flowers followed by globose, shining orange fruits. Good autumn colour. Height 1m. Moist well-drained soil in sun. April.
<b>Berberis</b>	temolaica		A vigorous shrub with stout erect spreading branches. The young shoots and serrated leaves are conspicuously glaucous, the shoots becoming a dark bloomy purple-brown with age. Pale yellow flowers are followed by egg-shaped red fruit, covered in bloom. Hei
<b>Berberis</b>	thunbergii	"Admiration"	A new variety of this deciduous shrub with glossy, oval, orange-red leaves with a contrasting yellow edge and delicate pale pink flowers. Height and spread 1.5m. Moist soil in sun. Flowers from May to July.
<b>Berberis</b>	thunbergii	"Aurea"	A rounded deciduous shrub with bright yellow leaves when young. Red-tinged pale yellow flowers are followed by glossy red fruit. Height 1.2m. Spread 1.2m. Moist well-drained soil. March to April. Needs part shade to avoid leaf scorch.
<b>Berberis</b>	thunbergii	"Bagatelle"	A dwarf very compact, rounded, thorny, deciduous shrub with deep red-purple leaves. Red-tinged pale yellow flowers are followed by glossy red fruit. Height 30cm. Spread 40cm. Moist well-drained soil in sun or part shade. Flowers from March to April.
<b>Berberis</b>	thunbergii	"Bonanza Gold"	Deciduous shrub with small creamy-yellow flowers in May. Good golden foliage. Height up to 1.2m. Grows in most fertile well-drained soils in part shade.

<b>Berberis</b>	thunbergii	"Dart's Red Lady"	Spreading shrub with black-purple leaves. Red-tinged pale yellow flowers are followed by glossy red fruit. Excellent autumn colour. Height 75cm. Spread 60-90cm. Moist well-drained soil in part shade. March to April.
<b>Berberis</b>	thunbergii	"Golden Ring"	An attractive shrub with purple leaves with a gold edge. Red-tinged pale yellow flowers are followed by glossy red fruit. Excellent autumn colour. Height 1.4m. Spread 1.2m. Moist well-drained soil in part shade. Flowers from March to April.
<b>Berberis</b>	thunbergii	"Golden Rocket"	A new variety of this deciduous shrub with a narrow upright habit and golden foliage that does not scorch in the sun. Pale yellow flowers are followed by red berries. Height 1.2m. Spread 60cm. Moist well-drained soil in sun or part shade.
<b>Berberis</b>	thunbergii	"Golden Torch"	A new variety of this deciduous shrub with upright habit and golden foliage that does not scorch in the sun. Small reddish flowers are followed by red berries. Height 1.2m. Spread 60cm. Moist well-drained soil in sun or part shade.
<b>Berberis</b>	thunbergii	"Harlequin"	An attractive shrub with purple-red leaves flecked white. Red-tinged pale yellow flowers are followed by glossy red fruit. Height 1.4m. Spread 1.2m. Moist well-drained soil in part shade. March to April
<b>Berberis</b>	thunbergii	"Helmond Pillar"	A narrow, deciduous upright shrub with dark purple-red leaves turning bright red in autumn. Red-tinged pale yellow flowers are followed by glossy red fruit. Height 1.4m. Spread 60cm. Moist well-drained soil possibly in part shade. Flowers from March to April
<b>Berberis</b>	thunbergii	"Maria"	An upright, deciduous shrub with bright yellow leaves with a carmine edging when young, turning rich reds in Autumn. Does not scorch in sun. Height 1.2m. Spread 60-90cm. Moist well-drained soil in sun or part shade.
<b>Berberis</b>	thunbergii	"Orange Rocket"	A new variety of this deciduous shrub with a narrow upright habit and orange-red foliage that turns purple in winter. Pale yellow flowers are followed by red berries. Height 1.2m. Spread 60cm. Moist well-drained soil in sun or part shade.
<b>Berberis</b>	thunbergii	"Pink Queen"	An attractive shrub with reddish-pink leaves flecked white. Red-tinged pale yellow flowers are followed by glossy red fruit. Height 2m. Spread 2.5m. Moist well-drained soil in part shade. Flowers from April to May.
<b>Berberis</b>	thunbergii	"Red Pillar"	Narrow, erect, deciduous shrub with purple-red leaves turning bright red in autumn. Red-tinged pale yellow flowers are followed by glossy red fruit. Height 1.2m. Spread 30cm. Moist well-drained soil in sun or part shade. Flowers from March to April.
<b>Berberis</b>	thunbergii	"Tiny Gold"	A dwarf variety with dense bright golden yellow foliage and yellow flowers, followed by red berries. Height and spread 40cm. Moist well-drained soil in part shade. Flowers from March to April.
<b>Berberis</b>	thunbergii	"Tricolour"	A deciduous shrub with new growth being green, blotched white and pink, ageing to green but giving good autumn colour. Yellow flowers in spring and red berries in autumn. Height and spread 1m. Well-drained soil in sun. Prune out older wood after flowering

<b>Berberis</b>	thunbergii f. atropurpurea		A tall shrub with dark purple-red leaves. Pale yellow red-tinged flowers are followed by glossy red fruit. Excellent autumn colour. Height 1.5m. Spread 1m. Moist well-drained soil in part shade. April to May.
<b>Berberis</b>	x stenophylla	"Corallina Compacta"	Compact evergreen shrub, with thin green leaves. Clusters of red-budded, light orange flowers followed by blue-glaucous, black fruits. Height 30cm. Moist well-drained soil in sun or shade. April to May.
<b>Bergenia</b>		"Abendglut"	An evergreen clump-forming perennial with red-tinted green leaves, ruby-red beneath, turning a rich maroon colour in winter. Semi-double, magenta-crimson flowers on red stems. Height 20-30cm. Well-drained soil in sun or part shade. Apr.-May.
<b>Bergenia</b>		"Autumn Magic"	A clump-forming evergreen perennial with rounded glossy foliage and bright pink flowers. Height 30cm. Moist well-drained soil in sun or drier soils in part shade. Oct-Dec.
<b>Bergenia</b>		"Baby Doll"	A clump-forming perennial with mid-green leaves and soft pink flowers that darken with age giving a two-tone effect. Height 30cm. Well-drained soil in sun or part shade. Apr.-May.
<b>Bergenia</b>		"Bressingham Ruby"	A clump-forming perennial with broad deep green leaves, that turn purple in autumn (if cold). Clusters of ruby-red flowers. Height 60cn. Well-drained soil in sun or part shade. April to May.
<b>Bergenia</b>		"Bressingham White"	Clump-forming perennial with broad deep green leaves. White flowers with a pink tinge. Height 30-45cn. Well-drained soil in sun or part shade. April to May.
<b>Bergenia</b>		"Magic Giant"	Clump-forming evergreen perennial with large rounded glossy red winter foliage and deep pink flowers. Height 30-40cm. Moist well-drained soil in sun or drier soils in part shade. Mar.-May.
<b>Bergenia</b>		"Overture"	Clump-forming evergreen perennial with rounded glossy red winter foliage and magenta flowers. Height 20-30cm. Moist well-drained soil in sun or drier soils in part shade. Mar.-May.
<b>Bergenia</b>		"Rosie Klose"	Clump-forming perennial with red-tinted green leaves and salmon-pink flowers. Height 20-30cm. Moist well-drained soil in sun or part shade. Apr.-May
<b>Bergenia</b>		"Schneekissen"	A clump-forming perennial with large evergreen leaves, that turn red in autumn and white blushed pink flowers. Height 40cm. Moist well-drained soil in sun or part shade. Mar.-Apr.
<b>Bergeranthus</b>	glenensis		A mat forming succulent with pairs of leaves one bigger than the other. Pink buds open to yellow flowers. Height 5-10cm. Well-drained soil in sun. Needs winter protection, when it should be kept on the dry side.
<b>Bergeranthus</b>	scapiger		A mat forming succulent with pairs of leaves one bigger than the other. Golden yellow flowers nestle in the leaves. Height 5-10cm. Well-drained soil in sun. Needs winter protection, when it should be kept on the dry side.
<b>Besseyia</b>	alpina		Basal rosettes of almost circular leathery leaves with serrated edges. Spikes of fluffy violet lipped flowers. Height 15cm. Moist well-drained, peaty soil in sun. Jun.-Aug.
<b>Betula</b>		"Long Trunk"	A compact tree with large, glossy, toothed green leaves on

			steeply pendant branches and a good white trunk. Height 5-6m. Spread 3-4m. Moist well drained soil in sun or part shade.
<b>Betula</b>	albo-sinensis	"Septentrionalis"	A deciduous conical tree with peeling grey-pink bark, coppery-pink on the main branches.. Matt green leaves, turning yellow in autumn. Yellow-brown catkins open with the leaves. Eventual height 25m. Spread 10m. Moist well-drained soil in sun or part shade
<b>Betula</b>	ermanii	"Pendula"	A small upright, deciduous tree with dark-green, veined, heart shaped leaves, turning yellow in autumn. The branches are pendulous. Moist well-drained soil in sun or part shade.
<b>Betula</b>	lenta		The Cherry Birch. Grown for its attractive bark which by summer is glossy dark chocolate brown. If skinned it emits a scent of oil of wintergreen. Leaves turn a rich gold in autumn. Height 12m. Moist well-drained soil in sun.
<b>Betula</b>	utilis		Conical tree with largish, dark green heart-shaped leaves that turn yellow in Autumn and peeling, copper-brown or pinkish bark. Yellow-brown catkins appear in spring. Eventual height (50 years+) 18m. with a spread of 10m.
<b>Betula</b>	utilis var. jaquemontii		A deciduous, conical tree with peeling, white bark. Dark green leaves turn yellow in autumn. Yellow-brown catkins in spring. Height 18m. Spread 10m. Moist well-drained soil in sun or part shade.
<b>Betula</b>	utilis var. jaquemontii	"Multi-stem"	A deciduous, tree with peeling, white bark. Dark green leaves turn yellow in autumn. Yellow-brown catkins in spring. Moist well-drained soil in sun or part shade. The tree is grown with more than one stem to look more like a thicket.
<b>Bidens</b>	heterophylla	"Hannay's Lemon Drop"	From clumps of ferny foliage arise tall stems of yellow daisy-like flowers with a white edge. Height 1.2m. Moist well-drained soil in sun or part shade. Aug.-Sep.
<b>Blechnum</b>	pennamarina		Broadly pinnate dark green dull-glazed spreading evergreen fronds form dense low ground-cover in a shady spot. Height 15-20cm. Moist soil in part shade..
<b>Blechnum</b>	spicant		The native hard fern. Neat clumps of sterile dark green comb-like fronds with thinner fertile upright fronds in the centre. Height 40cm. Evergreen. Moist acid soil in part shade.
<b>Bongardia</b>	chrysogonum		A bulb with bluish pinnate leaves each leaflet having a purple blotch at the base. Produces loose sprays of yellow flowers. Height 20cm. Will grow in dry shade. Feb.-May.
<b>Briza</b>	media	"Limouzi"	"Quaking Grass". A form of this native grass, larger in all its parts. Bluish-green leaves and purple and green spikelets with locket-shaped flowers. Height 60cm. Well-drained soil in sun. May-Aug. Good on chalky soils.
<b>Briza</b>	media	"Russells"	A compact form of Quaking Grass, with striking green and white variegation and the characteristic flower/seed heads that quake and tremble in the wind. Height 50-60cm. Moist well-drained soil in sun. May-Jun.
<b>Brunnera</b>	macrophylla		Perennial with heart-shaped green leaves. Airy sprays of forget-me-not-like bright blue flowers. Height 45cm. Moist well-drained shaded site. Apr.-May.
<b>Brunnera</b>	macrophylla	"Betty Bowring"	Perennial with heart-shaped green leaves. Airy sprays of Small white flowers. Height 45cm. Moist well-drained soil

in part shade. Apr.-May.

<b>Brunnera</b>	macrophylla	"Hadspen Cream"	Perennial with heart-shaped leaves with creamy white margins. Airy sprays of forget-me-not-like bright blue flowers. Height 45cm. Moist well-drained soil in part shade. Apr.-May.
<b>Brunnera</b>	macrophylla	"Jack Frost"	Silver foliage with a green edge and veining. Sprays of bright blue forget-me-not flowers. Height 50cm. Moist well-drained soil in part shade. Mar.-May
<b>Brunnera</b>	macrophylla	"King's Ransom"	A herbaceous perennial with heart-shaped leaves with yellow to creamy white margins. Airy sprays of forget-me-not-like bright blue flowers. Height 45cm. Moist well-drained soil in part shade. Apr.-May.
<b>Brunnera</b>	macrophylla	"Langtrees"	Heart-shaped green leaves, spotted with silver grey. Forget-me-not-like bright blue flowers. Height 45cm. Moist well-drained shady site. Ap.-May.
<b>Brunnera</b>	macrophylla	"Looking Glass"	A sport of "Jack Frost" where the silver foliage lacks the green edge and veining. Sprays of bright blue forget-me-not flowers. Height 50cm. Moist well-drained soil in part shade. Mar.-May
<b>Brunnera</b>	macrophylla	"Marley's White"	A robust perennial with heart-shaped green leaves. Airy sprays of white flowers. Height 50cm. Moist well-drained soil in part shade. Mar.-May.
<b>Brunnera</b>	macrophylla	"Mr. Morse"	Silver foliage with a green edge and veining. Sprays of white forget-me-not flowers. Height 50cm. Moist well-drained soil in part shade. Mar.-May
<b>Brunnera</b>	macrophylla	"Silver Wings"	A perennial with heart-shaped green leaves overlaid with silver, noticeable at the edges. Airy sprays of forget-me-not-like bright blue flowers. Height 30-45cm. Moist well-drained shaded site. Apr.-May.
<b>Buddleja</b>		"Buzz Ivory"	A dwarf form of Buddleja with upright stems of grey-green, lanceolate, leaves Panicles of ivory-cream flowers. Height and spread 60-90cm. Well-drained soil in sun. May to August. Prune hard in late March.
<b>Buddleja</b>		"Buzz Lavender"	A dwarf form of Buddleja with stems of grey-green, lanceolate, leaves Panicles of lilac-violet flowers with an orange eye. Height and spread 60-90cm. Well-drained soil in sun. May to August. Prune hard in late March.
<b>Buddleja</b>		"Buzz Magenta"	A dwarf form of Buddleja with stems of grey-green, lanceolate, leaves Panicles of rich purple-magenta flowers. Height and spread 60-90cm. Well-drained soil in sun. May to August. Prune hard in late March.
<b>Buddleja</b>		"Buzz Sky Blue"	A dwarf form of Buddleja with stems of grey-green, lanceolate, leaves Panicles of sky-blue flowers. Height and spread 60-90cm. Well-drained soil in sun. May to August. Prune hard in late March.
<b>Buddleja</b>		"Lochinch"	A fast-growing, deciduous shrub with arching, grey-hairy stems of green leaves. Conical panicles of violet-blue flowers with orange eyes. Height 3m. Spread 5m. Well-drained soil in sun. Flowers from May to August.
<b>Buddleja</b>		"Pink Delight"	Fast-growing shrub with arching stems of grey-green leaves. Large conical panicles of bright pink flowers with orange eyes. Height 3m. Spread 5m. Well-drained soil in sun. Flowers from May to August. Prune hard in early spring.

<b>Buddleja</b>		"Silver Anniversary"	A deciduous shrub with arching stems of felted grey-white leaves, and somewhat globular heads of fragrant white flowers. Height and spread 2m. Well-drained soil in sun.. Flowers from May to August
<b>Buddleja</b>		"Silver Service"	Forms a large, mostly, evergreen shrub with felted grey leaves that are strongly dentate with unusual terminal racemes of very small yellow flowers. Height 3-5m. Spread 2-3m. Well drained sheltered site in sun. Flowers from May to July.
<b>Buddleja</b>	alternifolia		Fast-growing shrub with arching stems of narrow green leaves. Intensely fragrant clusters of lilac flowers wreath the branches. Height 4m. Spread 4m. Well-drained soil in sun. May to August. Prune hard in Spring.
<b>Buddleja</b>	alternifolia	"Argentea"	Fast-growing shrub with arching stems of leaves covered with silky hairs giving them a silvery sheen. Intensely fragrant clusters of lilac flowers wreath the branches. Height 4m. Spread 4m. Well-drained soil in sun. May to August. Prune hard in spring.
<b>Buddleja</b>	colvilei	"Kewensis"	A deciduous shrub with long, lanceolate, dark green leaves and long panicles of red flowers. Eventual height and spread 6m. Well-drained sheltered site in sun. Flowers from May until July.
<b>Buddleja</b>	davidii	"Adonis Blue"	A dwarfer form of Buddleja with stems of green, lanceolate, leaves Panicles of scented dark blue flowers. Height and spread 1.5m. Well-drained soil in sun. May to August. Prune hard in late March.
<b>Buddleja</b>	davidii	"Black Knight"	A fast-growing deciduous shrub with arching stems of green leaves. Long conical panicles of dark purple-blue flowers. Height 3m. Well-drained soil in sun. May-Aug. Prune hard in early spring.
<b>Buddleja</b>	davidii	"Dartmoor"	A fast-growing deciduous shrub with arching stems of green leaves Large panicles of lavender-blue flowers with orange eyes. Height 3m. Spread 5m. Well-drained soil in sun. Flowers from May to August.
<b>Buddleja</b>	davidii	"Empire Blue"	A fast-growing deciduous shrub with arching stems of green leaves Panicles of violet-blue flowers with orange eyes. Height 3m. Spread 5m. Well-drained soil in sun. Flowers from May to August.
<b>Buddleja</b>	davidii	"Florence"	A fast-growing deciduous shrub with arching stems whitish margined leaves and terminal panicles of pale lilac flowers. Height 3m. Spread 4m. Well-drained soil in sun. Flowers from May to August.
<b>Buddleja</b>	davidii	"Harlequin"	A fast-growing deciduous shrub with arching stems of yellow-margined when young, cream when mature, green leaves and terminal panicles of dark purple-red flowers. Height 3m. Spread 4m. Well-drained soil in sun. Flowers from May to August.
<b>Buddleja</b>	davidii	"Nanho Blue"	Fast-growing shrub with arching stems of slender blue-green leaves. Narrow panicles of pale lilac-blue flowers. Height 3m. Spread 5m. Well-drained soil in sun.. Flowers from May to August.
<b>Buddleja</b>	davidii	"Nanho Purple"	A fast-growing deciduous shrub with arching stems of slender green leaves Narrow panicles of pale purple-blue flowers. Height 3m. Spread 5m. Well-drained soil in sun. May-Aug.

<b>Buddleja</b>	daavidii	"Pixie Red"	A dwarf form of Buddleja with arching stems of green leaves Panicles of dark purple-red flowers. Height 2m. Spread 3m. Well-drained soil in sun. May to August. Prune hard in late March.
<b>Buddleja</b>	daavidii	"Purple Emperor"	A dwarf form of Buddleja with stems of green, lanceolate, leaves Panicles of scented purple flowers. Height and spread 1.5m. Well-drained soil in sun. May to August. Prune hard in late March.
<b>Buddleja</b>	daavidii	"Red Admiral"	A fast-growing deciduous shrub with arching stems of green leaves margined creamy-yellow. Panicles of dark purple-red flowers. Height 3m. Spread 4m. Well-drained soil in sun. May to August.
<b>Buddleja</b>	daavidii	"Royal Red"	A fast-growing deciduous shrub with arching stems of green leaves Panicles of dark purple-red flowers. Height 3m. Spread 5m. Well-drained soil in sun. May to August.
<b>Buddleja</b>	daavidii	"Santana"	A spreading deciduous shrub carrying golden leaves with a central green splash. Large panicles of crimson-purple flowers. Height 3m. Well-drained soil in sun. May-Aug. Prune hard in early spring.
<b>Buddleja</b>	daavidii	"White Profusion"	A fast-growing deciduous shrub with arching stems of green leaves and panicles of white flowers with yellow eyes. Height 3m. Spread 5m. Well-drained soil in sun. Flowers from May to August. Prune hard in spring.
<b>Bulbocodium</b>	vernum		Bulbous plant with pinkish-lilac flowers. Dark green leaves up to 15cm. long appear with or after flowering. Well-drained site. Feb.-Apr.
<b>Bupleurum</b>	fruticosum		Dense evergreen shrub with rounded, blue-green leaves. Umbels of small, star-shaped yellow flowers. Suitable for a coastal garden. Height 1.2m. Spread 1m. Well-drained soil in sun. Flowers from July to September
<b>Bupleurum</b>	longifolium		A tufted perennial with stems of bright green ovate leaves topped with umbels of small yellow flowers. Height 60-90cm. Moist well-drained soil in sun or part shade. Jun.-Jul.
<b>Buxus</b>	microphylla	"Compacta"	A slow growing evergreen shrub with small elliptical shiny green leaves. Height and spread 30cm. Moist well-drained soil in sun or part shade.
<b>Buxus</b>	sempervirens	"Elegantissima"	An evergreen slow growing dense, rounded shrub with glossy, creamy-white margined, dark green narrow leaves , which are notched at the tips. Well-drained soil, best in part shade but can be grown in sun. Height 1.5m. Spread 1.5m. Suitable for low hedging
<b>Buxus</b>	sempervirens	"Marginata"	An erect growing cultivar of "Box" with green leaves irregularly margined yellow. Height 2m. Spread 1-1.5m. Well-drained soil in sun or part shade.
<b>Buxus</b>	sempervirens	"Notata"	A large evergreen shrub, with the upper leaves of the terminal shoots are tipped and suffused with yellow. Insignificant flowers are produced in clusters in the leaf axils in spring. Height 4m. Spread 4m. Can be pruned to shape.
<b>Buxus</b>	sempervirens	"Suffruticosa"	Compact, rounded very slow-growing evergreen shrub with glossy, green leaves and small yellow flowers. Height up to 1m. Spread 1.5m. Well-drained soil in sun or part shade. The variety for edging parterres etc.
